UNITED STATES DEPARTMENT OF LABOR
Proposed Child Labor Law Revisions

- Increase current constraints in terms of agricultural work involving animals, manure pits, storage bins and pesticide handling

Prohibit workers under 16 from:

- being employed in the cultivation, harvesting and curing of tobacco
- using electronic devices, such as communication devices like radios or cell phones, while operating power-driven equipment or heavy machinery
- from operating almost all power-driven equipment
- from working in the storing, selling or shipping of raw materials on the farm, including employment in stockyards and livestock auctions
